

Enel Recognized by Fast Company for Sustained Excellence in Fostering Innovation Culture

ANDOVER, MA – September 27, 2023 – [Enel North America](#) has been named to Fast Company's 2023 Best Workplaces for Innovators Sustained Excellence List for its continued commitment to fostering a culture of innovation. This is the second year Enel has been recognized by Fast Company for its dedication to cultivating innovation in the workplace.

"Continuous innovation is absolutely critical to accelerating the clean energy transition and enabling a more sustainable energy future," said David Rodriguez, Director of Innovation at Enel North America. "Innovation is instilled deep into Enel's culture. We're thrilled to be recognized for our innovative culture and look forward to driving continued advancement throughout the energy industry."

Enel's [Open Innovability® approach](#) empowers its people to think outside-the-box, challenge the status quo, and collaborate with industry stakeholders to turn ideas into concrete solutions that will shape the future of the energy industry. Designed to stimulate the culture of entrepreneurship within the company, Enel launched an internal program where employees can propose and carry out innovative projects that create value for the business and its customers.

At its various innovation hubs across the globe, Enel works hand in hand with startups and leading experts to develop and test groundbreaking ideas, technologies, and solutions. Holding the belief that education advances innovation, Enel invests in its employees' continued learning and professional development through tuition reimbursement and reskilling programs.

Developed in collaboration with Accenture, the 2023 Best Workplaces for Innovators ranks 100 winners from a variety of industries, including entertainment, biotech, consumer packaged goods, marketing, education, healthcare, and many more.
